- **Improved** Visibility of Outcomes
- **Improved** Adaptability
- **Lower** risks
- **Satisfied** Customers

LEADERS

PRACTITIONERS

CERTIFICATION

BEGINNERS

LOSS IN NOT PARTICIPATING

- **Difficulty** in managing change
- **Inability** to manage expectations
- **Increased** cost due to rework and delays
- **Inability** to manage VUCA circumstances
- **Lack** of clear goals and priorities
- **Lack** of collaboration
- **Poor/Negative** outcome
- **Poor** morale and performance
- **Poor** communication

*based on survey results from the 16th State of Agile Report, 2022

3-DAYS

AUDIENCE

Managers and Leaders

Learning Outcomes

- 1 Discuss techniques to lead and manage Agile teams in fast-paced, rapidly changing environments**
- 2 Explain how to create a culture of collaboration and continuous improvement within Agile teams**
- 3 Explain how to communicate and collaborate with stakeholders in a VUCA environment**
- 4 Apply principles and practices of Agile and leadership in VUCA environments**
- 5 Apply techniques to make quick and effective decisions in a volatile, uncertain, complex, ambiguous environment**

Additional Value 🔥 🔥 🔥

- **Pre-Training Engagement**
- **Post-Training Engagement**
- **Progress Tracking**
- **Certificate Accredited by Credly**
- **Learning Management System (LMS)**

Outline

Topic	Learning Outcome	Description
Agile Methodologies	1	Understanding the principles and practices of agile development, including Scrum, Kanban, and other agile frameworks
VUCA environments	4, 5	Understanding the characteristics and challenges of VUCA (volatile, uncertain, complex, and ambiguous) environments, and how to adapt leadership styles and approaches to manage in these environments
Emotional Intelligence	2	Developing emotional intelligence skills to build strong relationships, foster collaboration, and manage conflict effectively
Strategic Thinking	4	Developing skills in strategic thinking, including identifying and evaluating opportunities, assessing risks, and making data-driven decisions
Change Management	2, 3	Understanding change management principles and techniques, including how to communicate change, manage resistance, and facilitate adoption
Team Leadership	1	Developing skills in team leadership, including effective communication, coaching and mentoring, and creating a culture of continuous improvement
Innovation and Creativity	4	Developing skills in fostering innovation and creativity, including how to generate new ideas, prototype and test them, and bring them to market
Agility and Adaptability	1, 5	Developing skills in agility and adaptability, including how to pivot quickly, respond to changing market conditions, and manage risk effectively

I attended the Agile Project Management in Practice. Although I've had experience in Agile over a number of years, I did not have a solid grounding which this training provided me. I saw the link, the connection and it enriched my experiences. We have had lots of hands-on activities with team exercises which was super useful.

I attended the PMI-ACP Exam Prep course. It was very well taught despite being 100% virtual. Dr Sanath made the class interactive and interesting, providing real-world examples. I was supported in my certification journey beyond the class with study group, live whatsapp chat support, reading materials, live portal, mock quizzes, etc. I am happy that I obtained my PMI-ACP certification in the following month. Thank you Dr. Sanath!!
