- **Improved** Productivity metrics
- **Improved** Quality
- **Improved** Visibility of Outcomes
- **Improved** Adaptability
- **Lower** risks
- **Satisfied** Customers

LEADERS

PRACTITIONERS

CERTIFICATION

BEGINNERS

LOSS IN NOT PARTICIPATING

- **Difficulty** in managing change
- **Inability** to manage expectations
- **Increased** cost due to rework and delays
- **Inability** to manage VUCA circumstances
- **Lack** of clear goals and priorities
- **Lack** of collaboration
- **Poor/Negative** outcome
- **Poor** morale and performance
- **Poor** communication

*based on survey results from the 16th State of Agile Report, 2022

1-DAY

Audience

- Anyone seeking an introduction and awareness on Agility@Workplace

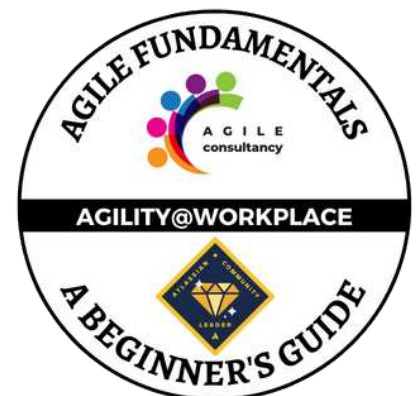

Learning Outcomes

- 1 Explain key principles and values of Agile and its relevance to today's fast-paced business environment**
- 2 Describe the essential components required to implement Agile methodology and facilitate an Agile Way of Working**
- 3 Discuss how Agile practices are used to manage projects and operations effectively**

Additional Value 🔥 🔥 🔥

➤ **Post-Training Engagement**

➤ **Certificate Accredited by Credly**

Outline

Topic	Learning Outcome	Description
Introduction to Agile	1	Overview of the Agile software development methodology, including its history, principles, and benefits
Agile Frameworks	1	Explore popular Agile frameworks, such as Scrum, Kanban, and Lean, and their application in software development
Agile Roles and Responsibilities	1	Cover the different roles in Agile development, including the product owner, scrum master, and development team, and their responsibilities
Agile Practices	2	Delve into various Agile practices such as user stories, sprint planning, daily stand-ups, sprint reviews, and retrospectives
Agile Artifacts	2	Explore the various artifacts in Agile development such as product backlog, sprint backlog, burn-down charts, and Kanban boards
Agile Tools	2	Introduce Agile tools such as Jira, Trello, and Asana, and their use in Agile development
Agile Culture	2	Discuss the importance of Agile culture, including collaboration, communication, transparency, and continuous improvement
Agile Implementation	3	Provide guidance on how to implement Agile in an organization, including overcoming common challenges and adopting an Agile mindset.

I attended the Agile Project Management in Practice. Although I've had experience in Agile over a number of years, I did not have a solid grounding which this training provided me. I saw the link, the connection and it enriched my experiences. We have had lots of hands-on activities with team exercises which was super useful.

I attended the PMI-ACP Exam Prep course. It was very well taught despite being 100% virtual. Dr Sanath made the class interactive and interesting, providing real-world examples. I was supported in my certification journey beyond the class with study group, live whatsapp chat support, reading materials, live portal, mock quizzes, etc. I am happy that I obtained my PMI-ACP certification in the following month. Thank you Dr. Sanath!!
