

Fish Farms

SVIZONA

SVIZONA is committed to responsible and sustainable business practices prioritizing environmental, Social, and Governance (ESG) considerations. Integrating ESG considerations into our decision-making and operations is essential for creating long-term value for our stakeholders and contributing to a more sustainable and equitable world.

Purpose

Our purpose is embedded in our logo and the symbolism of the Phoenix, a mythical bird that rises from its ashes, symbolizing the power of renewal and the ability to overcome challenges. We are constantly adapting to new technologies and embracing the challenges to stay ahead of the curve to offer our partners the best innovative solutions.

Our Focus

At SVIZONA, our mission is to harness the power of technology to drive innovation and sustainability. By developing cutting-edge solutions, we help businesses and organizations worldwide create a more sustainable future for all. SVIZONA has established itself as a trusted partner for innovative and sustainable technologies.

At SVIZONA, we are constantly innovating and evolving to stay ahead of the curve. We are committed to helping our clients and partners realize their full potential.

01

INNOVATION

We work closely with our partners and customers to identify emerging trends and technologies.

02

DECARBONIZATION

At SVIZONA, we believe in doing our part to protect the planet with our zero emissions policy.

03

SUSTAINABILITY

Sustainability isn't just a goal for us; it's a way of doing business.

Our Services

Engineering & Construction

We transform visions into high-quality engineering and construction projects. Our dedicated team is committed to excellence and sustainability in every endeavor.

Construction

01 Services

We provide engineering and construction services for complete life cycle of the projects. We do;

- Buildings
- Civil
- Mechanical
- Electrical
- Concrete
- Piping
- Tanks

02 Our Team

SVIZONA is committed to delivering successful project outcomes through open communication and industry-leading tools and techniques. Our skilled team provides innovative and sustainable solutions tailored to each client's needs. We offer design, engineering, project management, and commissioning services.

03 Project Governance

We provide Engineering & Construction and MEP combined with our technological expertise based on Cyber cloud solutions, industrial automation, Process packages, metering systems, retrofit, and LPG Vaporization and SNG plant solutions for the various industrial segments. Our expertise ensures successful project outcomes and reduces our clients' downtime and operating costs.

Planning & Implementation (1/2)

Our team manages the construction and infrastructure, ensuring your farm thrives in both productivity and environmental responsibility.

Planning and implementing a successful fish farm starts with a thorough site assessment and species selection. At SVIZONA, we collaborate with clients to create tailored plans that incorporate efficient water management and sustainable feeding practices while ensuring regulatory compliance. Our team manages the construction and infrastructure installation, focusing on efficiency and sustainability to help you build a thriving fish farm that meets productivity and environmental goals.

Planning & Implementation (2/2)

Our team manages the construction and infrastructure, ensuring your farm thrives in both productivity and environmental responsibility.

Farm Engg & Construction

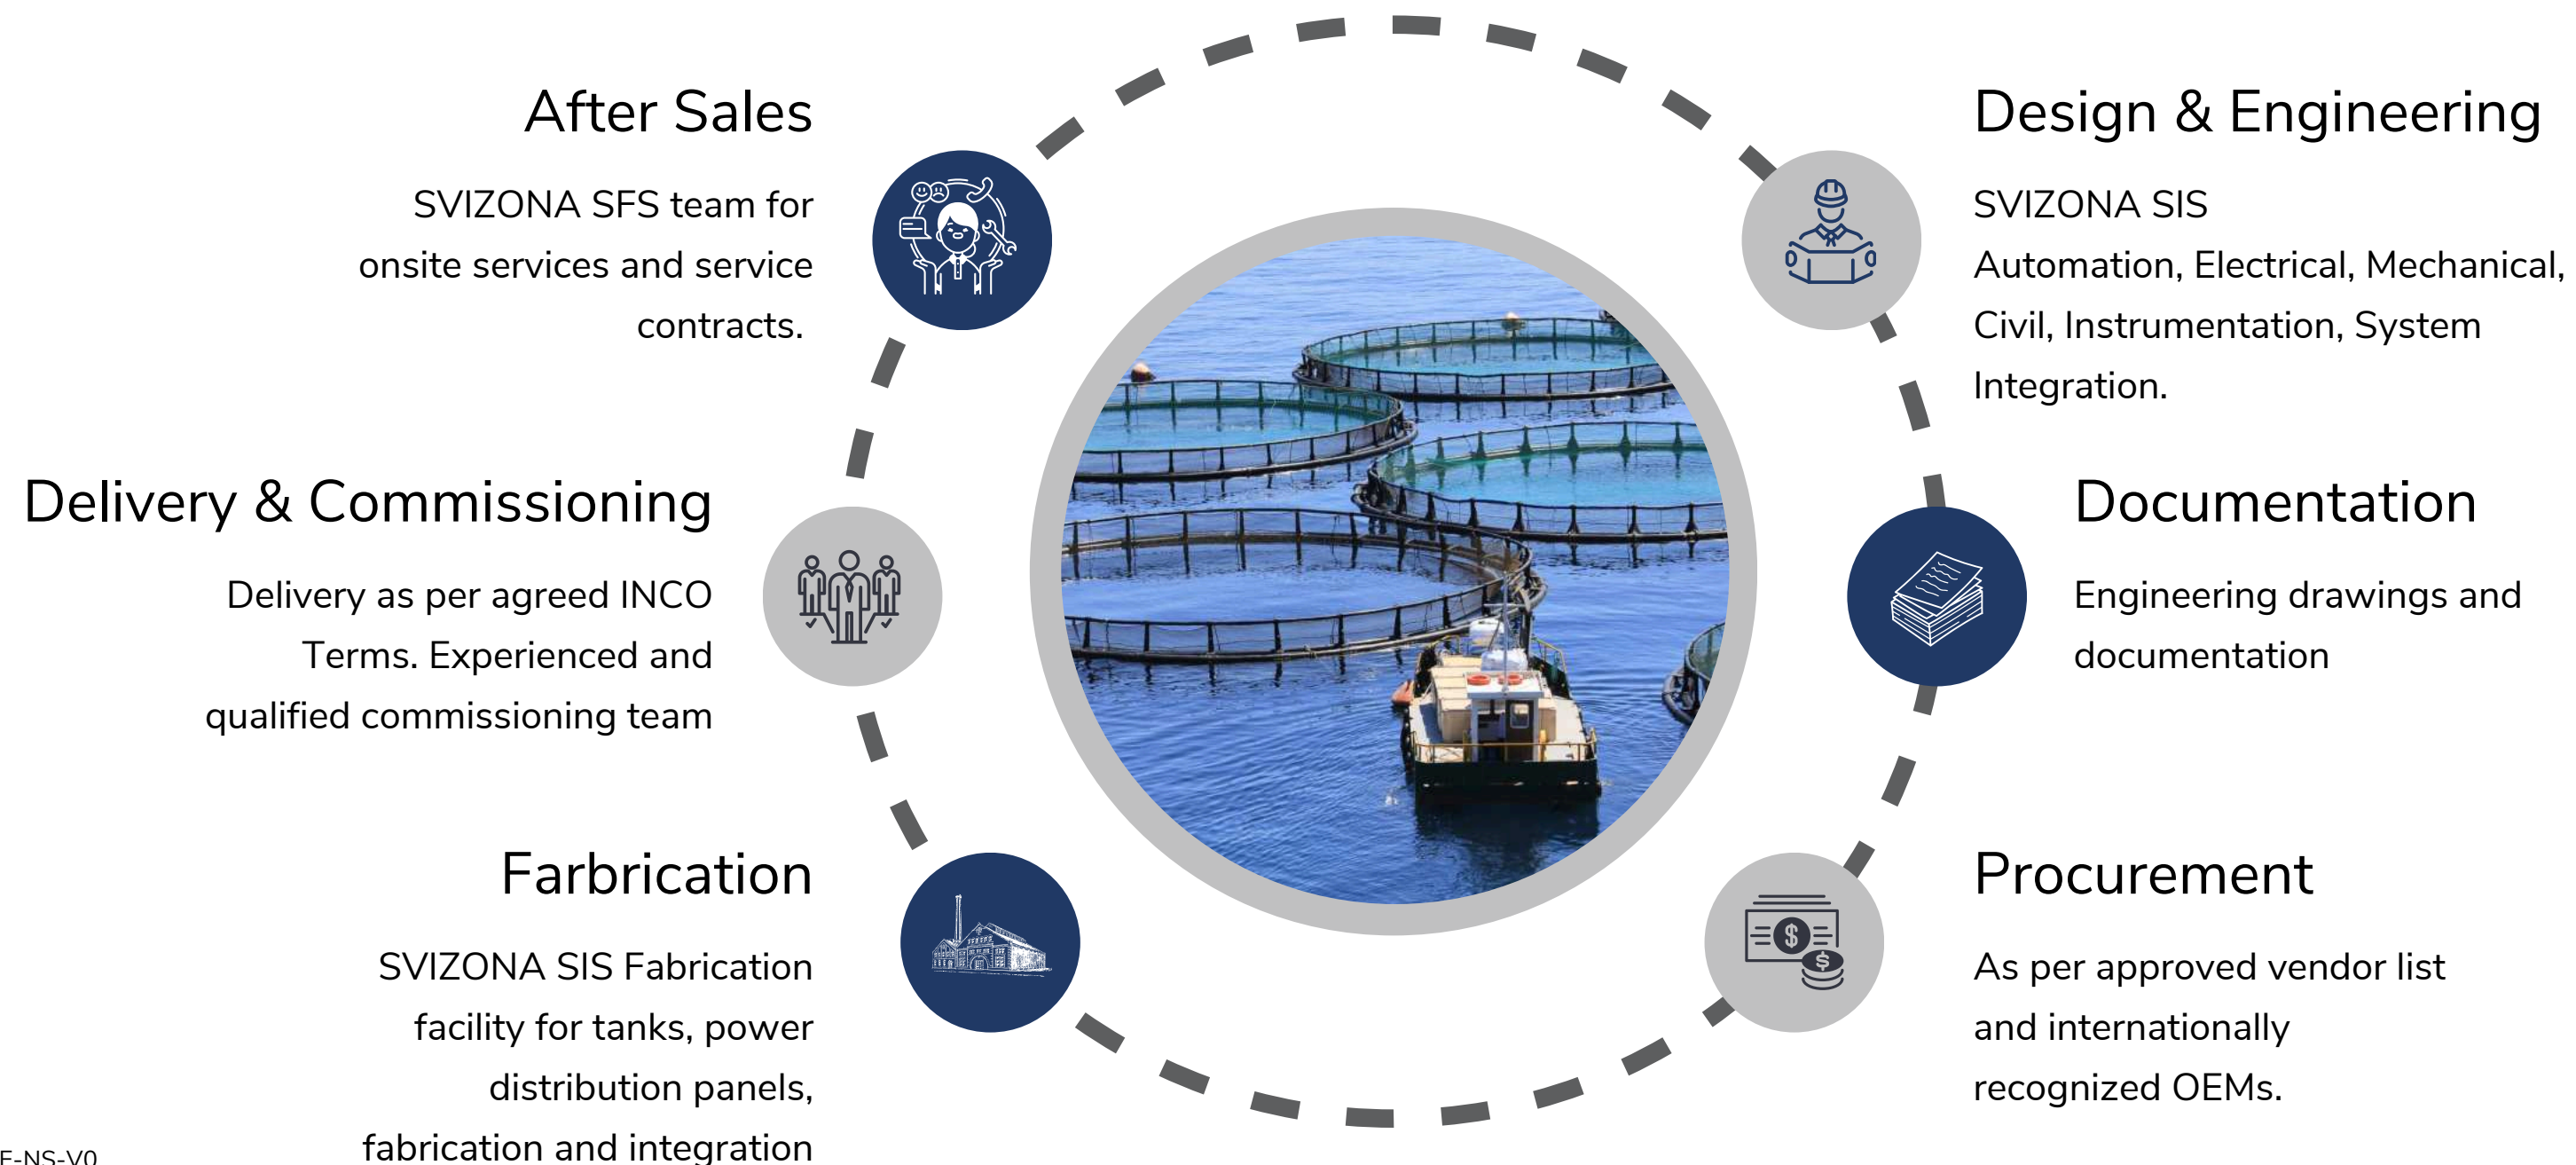

Our team combines expertise in aquaculture with innovative design and sustainable practices to create efficient, scalable fish farming facilities. From site assessment and infrastructure development to water management systems and biosecurity measures, we ensure every aspect of your farm is optimized for productivity and environmental stewardship.

Project Governance

Our project execution methodology involves a collaborative approach with clients to ensure customized solutions that meet their unique needs. We provide end-to-end project management and quality control to deliver successful outcomes within budget and on schedule.

Pre-Engineered Building Construction

We specialize in the fabrication of pre-engineered buildings, providing efficient and cost-effective solutions for diverse projects. Our advanced manufacturing facilities produce high-quality steel structures tailored to client needs, streamlining construction to reduce build time. With a focus on precision, safety, and budget adherence, we are a trusted partner for warehouses, commercial buildings, and industrial facilities.

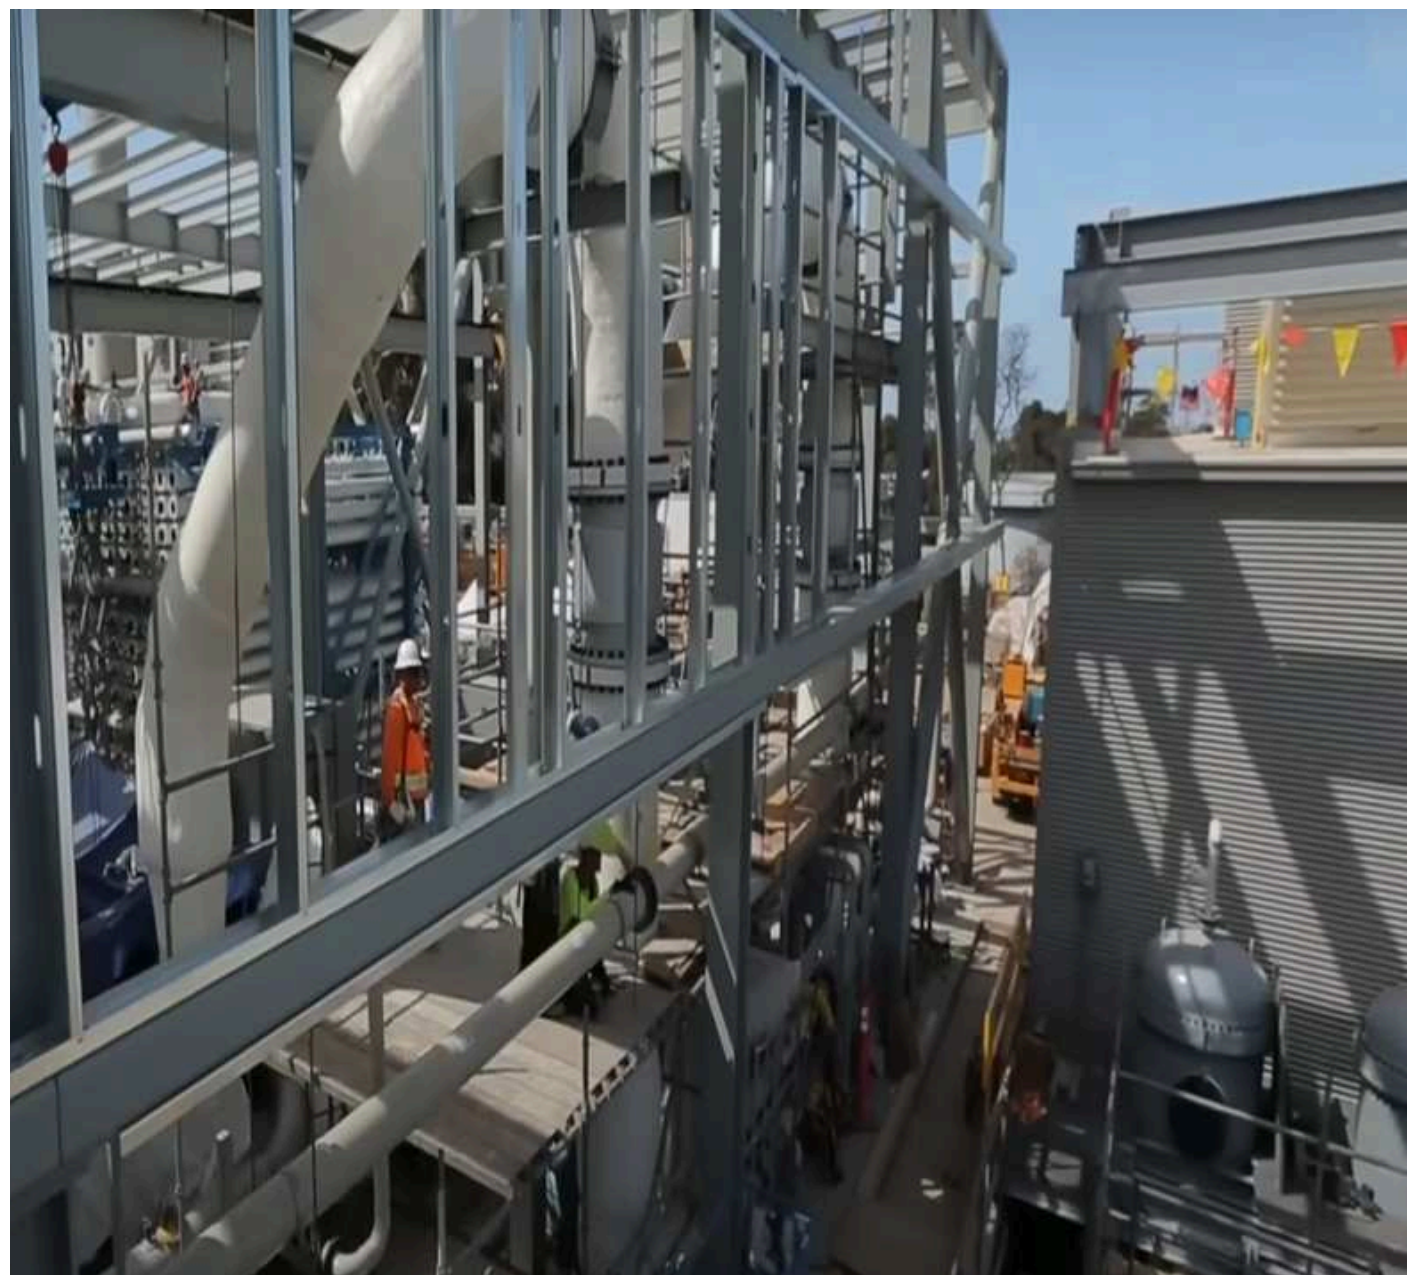

Civil Works

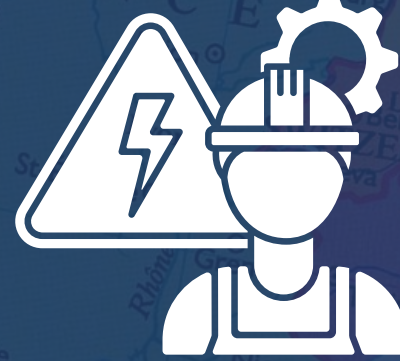

Our experienced team ensures projects are completed efficiently and to high quality standards while prioritizing safety and sustainability. Committed to meeting deadlines and exceeding client expectations, SVIZONA is your trusted partner for all civil engineering needs.

Mechanical works

SVIZONA offers extensive expertise in mechanical projects, providing services from design to installation and maintenance. Our skilled team specializes in HVAC systems, plumbing, launching biofilters, leak test, test run and ensuring facility optimized to the maximum production capacity.

Electrical works

SVIZONA excels in electrical supply works, offering design, installation, and maintenance of electrical systems. Our expert team specializes in power distribution, lighting solutions, and renewable energy integration, ensuring tailored, reliable, and efficient solutions. Committed to safety and quality, we deliver projects on time, making SVIZONA your trusted partner for all electrical needs.

Concrete works

Twin 42" Dia steel casing for 600m DI restrained water line - ADWEA

We offer concrete solutions for fish farms and aquaculture facilities, offering durable, water-resistant structures tailored to enhance sustainable fish farming practices. Their services include custom-designed concrete structures and ponds, reinforced floors and walls, and the integration of filtration systems, all aimed at optimizing water quality and circulation. With a focus on sustainability and ongoing maintenance, SVIZONA's solutions ensure longevity and efficiency, ultimately supporting the health and growth of fish.

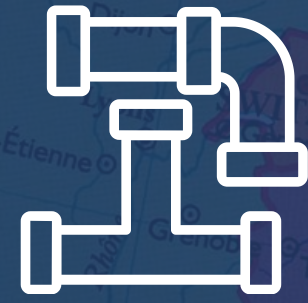

Piping works

SVIZONA is a trusted provider of piping works, offering design, installation, and maintenance services for various applications.

Our skilled team works with materials like steel, PVC, and HDPE to ensure projects meet industry standards. Focused on safety and efficiency, we deliver reliable piping solutions on time, making SVIZONA your go-to partner for all piping needs in industrial, commercial, and residential projects.

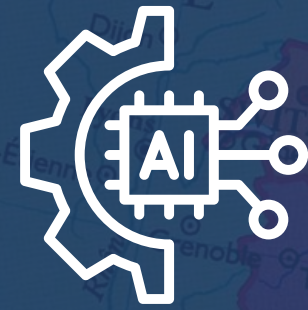

Pre-Engineered & Fabricated tanks

SVIZONA specializes in the design and construction of pre-fabricated fish tanks, utilizing high-quality materials and advanced techniques for durability and optimal fish health.

Our customizable solutions cater to various aquaculture needs while prioritizing sustainability and efficiency. Committed to quality and timely delivery, SVIZONA is your trusted partner for successful aquaculture outcomes.

Process Automation

SVIZONA offers cutting-edge solutions for fish farm automation, enhancing efficiency and productivity in aquaculture operations.

Our team designs and implements automated systems for feeding, water quality monitoring, and environmental control, ensuring optimal conditions for fish growth and health. By integrating advanced technology, we help clients reduce labor costs and improve overall management.

With a focus on innovation and reliability, SVIZONA is your partner for transforming fish farming into a more streamlined and effective process.
