DIPPING SAUCE

Black tea is a type of tea that is more oxidized than oolong, yellow, white and green teas. Black tea is generally stronger in flavour than other teas.

\$4.75

Green tea is produced by using young tea leaves and sold for consumption without fermentation after withering, steaming or pan firing, drying and grading.

\$4.75

Oolong tea is made from the leaves of the Camellia sinensis plant, the same plant used to make green tea and black tea.
